Yes indeed Chris - so far I think we've managed to insert ourselves in these, but I think the reminder is an excellent thing to do. This seems to be ramping up quickly all of a sudden. Thank you Chris and Calvin!

Wendy and Ann,

Just wanted to do a quick followup here, Calvin just reminded me that **ALL** R-10 deployments (no exceptions) need to be coordinated through the RICT. Beth had called me about doing the flash message below and I concurred, but forgot to mention the RICT role. Calvin will send out a flash message later today summarizing all of our deployments thus far, and reminding all managers of the RICT role we must follow. Just wanted to give a heads up on this.

Chris D. Field, Program Manager,

EPA Emergency Management Program, Region 10

## **Flash Message: R10 Deployment to Support Colorado Gold King Response**

At the request of the national Superfund program, Region 10 is sending Ed Moreen, Remedial Project Manager and civil engineer with extensive mine cleanup experience on the Bunker Hill site, to be part of a 4 person team to conduct an initial assessment of the release from the Gold King mine near Durango, Colorado. Other members of the team include Region 9 and HQ personnel. The team is tasked with providing the OWSER AA an initial report by the end of next week.
